## WORKSHOP APPROVAL STATEMENT

No. REC008821XP/001

Enclosure - Page 1 of 1

**Design and production of complete LNG powering systems, boilers, tube and shell heat exchangers, pressure and non-pressure vessels, different types of modules, steel and stainless steel construction.**

### **Approval Conditions**

Pressure vessels, associated piping systems and fittings shall be of a design and construction adequate for the service for which they are intended. Tested in accordance with the requirements of the Rules, under the supervision and to the satisfaction of the Society's Surveyors.

Plan approval is required for pressure vessels of class 1 and 2 as specified in Rina Rules Pt C, Ch 1, Sec 3. Society reserves the right to apply all or part of the requirements of the Rules to class 3 heat exchangers and pressure vessels, depending on the criticality of the equipment and/or of the system of which they are part.

### **General conditions for the approval**

- a) The initial conditions verified by RINA at the time of the assessment are to be maintained
- b) Any changes to the initial conditions are to be promptly communicated to RINA, which reserves the right to repeat the relevant assessment
- c) RINA personnel are to be allowed to witness during the performances of activities, upon their request
- d) The activities are to be carried out in compliance with RINA Rules and /or other applicable Rules
